That would be great Quinn. Thanks for initiating.

That seems like a good idea. I can work on putting that together. I do not think we have the statements in the SFIREG issue paper in a word document but I can copy them over. Should I just make it available to our small team for now?

I think we put together a table of the SFIREG statements in the white paper, with responses from the response doc. Do you have that in a Word doc? Maybe we can clean that up and make it available?

Hello Amber,

I think we are good for right now unless there is anything you want to discuss. If you are in on Friday it may be good to hear your thoughts as well but definitely optional.

Best,
Quinn

Subject: FW: Response to SFIREG Issue Paper on Treated Seeds

Hello Amber,

This is the email from Kaitlin regarding our response to the SFIREG issue paper. We have a meeting with her on Friday to learn a little more about her thoughts but it looks like for the questions we have already answered we can just refer to the response.

Best,
Quinn

Hi Quinn,

We have our monthly call with OPP and AAPCO/SFIREG leadership later in the afternoon on Tuesday 10/18. I can confirm then that they are still expecting a response and get a POC (Gary Bahr submitted the letter as Chair but I don't recall he was heavily engaged in the drafting of it) for any follow-up then clarification/discussion needed but my assumption is yes they will want a formal response from OPP, though I think they will expect us to point to the petition response text for the questions on rulemaking.

Thanks,
Kaitlin

Subject: Response to SFIREG Issue Paper on Treated Seeds
When: Tuesday, October 18, 2022 9:00 AM-9:30 AM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Hello All,

I am setting up this meeting to discuss the timeline and development of EPA's response to the SFIREG Issue Paper on treated seeds. Amber and I discussed reaching out to the drafters of the issue paper from SFIREG and asking if they have any remaining questions after reading the petition response. This would likely reduce the response needed and be more targeted at their remaining questions. I wanted to put that idea out there but hoping to discuss this as well in the meeting. If anyone has any questions before the meeting please let me know.

Thank you,
Quinn
